JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Tuesday - 20 October 1964

- 25X1 1. [] In conformance with agreement yesterday, I delivered to Mr. Joseph Felton, Assistant Staff Consultant, House Committee on Science and Astronautics, unclassified biographical sketch on [] 25X1

- 25X1 2. [] At his request, [] 25X1
[] met with Mr. Gordon Lucey at AID. Mr. Lucey had called us to advise of a request made by the staff of the Senate Government Operations Committee Investigations Subcommittee with respect to the Alaska Airlines relationships with the Government of Guinea. AID has information in their files [] and wish 25X1 to clear with us certain aspects of their dealings with the Subcommittee staff. (See Memo for the Record for details.)

- 25X1 3. [] Talked with John Conway, Staff Director, Joint Committee on Atomic Energy, concerning his query to [] 25X1
[] regarding a report on the Chicom nuclear program. I indicated this matter had been raised with the Director who indicated his willingness to brief the Joint Committee at any convenient time for Senator Pastore. Conway indicated that since the members are away it might be difficult to call a meeting but that he would be in touch with Senator Pastore. Conway inquired if it did not appear feasible to hold a meeting of the Committee what was our estimate on when a written report could be presented so that individual members could drop in and read it. I stated I would check into this and advise. I also inquired of Conway about the possibility of other members of CIA Subcommittees sitting in such a Committee meeting if it were held. He indicated that he saw no problem but would also check this out with Senator Pastore.
